

## Keep all the tools you need for quality testing, measuring or inspection at your fingertips

The QC Series Mobile Powered Workstations are designed for mobile quality testing, measurement & inspection as well as other processes requiring vast storage capabilities.

Just like every Newcastle Workstation Series, the new QC Series significantly improves productivity by providing seamless AC mobile power to your devices including laptops, tablets, 1-2 LCDs or touchscreens, barcode printers, scanners, testing/inspection devices and more for 8+ hours at a time.

## Outstanding benefits

- › Improving Processes – Designed to reduce costly worker motion, product transportation and touches on the shop or warehouse floor, resulting in significant productivity gains
- › QA on the Fly – No need to disrupt production as testing can now be performed right at the product
- › Vast Storage Capabilities – Ideal for tools, calipers and other testing/inspection devices

# Newcastle QC Series Powered Industrial Carts
